

This is to certify that
Clarendon Specialty Fasteners

Unit 5c - interface Business Park, Bincknoll Lane, Royal Wootton Bassett, Swindon, SN48QQ, United Kingdom

Has been assessed
by Terry Norton for IT Governance Ltd
against the Cyber Essentials Scheme Test Specification

Level of certification: Cyber Essentials

Scope: Internet facing infrastructure for Clarendon Specialty Fasteners. Including firewalls, routers, end user devices and hosted systems located at UK/USA.

Certification date: February 26th, 2020

Recommended re-assessment date: **February 25th, 2021**

Certificate no.: 8417453023754376

This Certificate confirms that the organisation named was assessed against the Cyber Essentials Requirements dated June 2014, and at the time of testing, the organisation's ICT defences were assessed to meet the Requirements. Cyber Essentials Certification indicates that the organisation has implemented a sensible baseline of organisational cyber security only, and implies no guarantee of effective defence against commodity cyber attacks circumventing this baseline. Organisations are recommended to define and understand the risks to their organisation and take all appropriate action to mitigate or reduce any issues, which may require a greater degree of rigour or technical investment than is required for Cyber Essentials alone.
